Massimiliano Guzzo

Full Professor

February 8, 2021

Profile

Massimiliano Guzzo is Full Professor at the University of Padova, Department of Mathematics "Tullio Levi-Civita". His research activity concerns Hamiltonian Dynamics, Deterministic Dynamical Systems and Celestial Mechanics; his researches have been published on Science, Communications in Mathematical Physics, Nonlinearity, Icarus, Annales Henry Poincaré, SIAM Journal on Applied Mathematics, Astronomy & Astrophysics, Monthly Notices of the Royal Astronomical Society, Physica D, and many other specialized journals; he has been invited speaker at many international conferences; he is PI of a MIUR-PRIN project; he has been director of the scientific commitee of the italian society for celestial mechanics SIMCA; he is member of the Course Board of the Phd Course in Space Sciences, Technologies and Measurements of the University of Padova; he has been consultant of the International Astronomical Union; asteroid 34716 (2001 PC14) has been named: 34716 Guzzo. As a student, he has been in the italian national team at the 20th International Physics Olimpiads.

Personal

Born on September 30, 1970, in Conegliano (Italy).

Employment

Permanent Position-Professore Ordinario *Università degli Studi di Padova*

Post-doctoral experience

2000 **Research grant-Assegno di Ricerca** *Università degli Studi di Padova*

1999 **Marie Curie Fellowship** *Observatoire de la Côte d'Azur, CNRS, Nice*

Education

1995-1999 **Phd in Mathematics** *Università degli Studi di Padova, Thesis "Nekhoroshev stability of quasi-integrable systems with singularities and degeneracy".*

1990-1994 **Laurea cum laude in Physics** *Università degli Studi di Padova.*

Scientific Activity

Keywords

Dynamical Systems-Hamiltonian Mechanics-Celestial Mechanics.
