

## SUMMER 2020 EXAM INSTRUCTIONS

Please, read carefully following instructions:

1. Enroll to this list if you wish to take Analytical Methods PARTIAL EXAM.
2. Enroll to this list also if you wish to take Analytical and Stochastic Methods FULL EXAM. In this case, you must enroll also to the list of Probabilistic and Stochastic Methods PARTIAL EXAM.
3. Enrolling to this list you lose all previous successful mark concerning Analytical Methods (if any). If you have a valid mark and you wish to validate the exam, please enroll in the appropriate list named "EXAM VALIDATION LIST".
4. Due to Covid19 pandemic, the July exam will be delivered in exceptional way. Concerning Analytical Methods:
  - the exam will be delivered online through ZOOM platform; specific link and technical instructions will be communicated to participants after exam list closure (July 3rd).
  - the exam will be divided in two parts: a written part (time  $\leq 1\text{h } 30'$ ) immediately followed by an oral part.
  - the written part consists in questions and exercises. A simulation of this part will be available online on the webpage of the course by beginning of June. In any case, the preparation required doesn't change respect to past Dec/Jan exams, so you may consider the reference material as the guide to prepare for exam.
  - the oral part, immediately after the written part, will be focused on your written part. Precisely, the examiner will ask to justify specific passages of your work. You must be able to properly justify what you wrote, otherwise your exam might be considered as failed.

For any question please contact the teacher at [paolo.guiotto@unipd.it](mailto:paolo.guiotto@unipd.it)
