

4.3 Funzione di ripartizione della distribuzione normale $N(0, 1)$

$$F_X(t) = P\{X \leq t\}, \quad X \sim N(0, 1)$$

Nella tabella, $0 \leq x \leq 2,99$, ad intervalli di $1/100$. Nell'intersezione tra l'ultima cifra significativa e le altre si legge $F_X(t)$.
